

UPDATE: 10/06/2021 Building Control Services AI LTD's position concerning the current coronavirus (COVID-19) situation.

In accordance with the current advice from the Government, our procedures have been reviewed and updated.

We are attending sites if the relevant social distancing measures can be strictly adhered to. Completion inspections are now included in the above statement. We will require that the site is cleared for our visit apart from one person who is to accompany our inspector.

To book a site inspection, please call the office number (01245 895 466) during the office hours of 8am-4.30pm, Monday to Friday. We will then arrange accordingly. **Written requests (including texts directly to the inspectors) will not be accepted.**

If any member of your family or your onsite team is displaying symptoms of COVID-19 either prior to OR following our site visit, please advise us immediately.

I would like to remind our clients that, as with all building work, the owner and occupier of the property or land in question is ultimately responsible for complying with the relevant planning rules and building regulations.

A building control body cannot provide a guarantee of compliance with the Building Regulations and the appointment of a building control body does not remove the obligation of the person carrying out the work to achieve compliance.

We hope you understand our stance and we will update this information as it evolves.

Paul Cattell
Director

These measures have been taken to protect not only our staff, but the wider community.
